

## Meet Frontier Silicon at HKEF Autumn Edition 2014

13th – 16th October 2014

**Grand Hyatt Hotel**  
**(connected to the Hong Kong Convention and Exhibition Centre)**  
**Wanchai, Hong Kong**

Following a successful IFA 2014, the team at Frontier Silicon are looking forward to showcasing our latest technologies at the Hong Kong Electronics Fair. You are invited to visit the Frontier Silicon demonstration room, where you can experience our next generation advanced DAB/DAB+ and HD Radio solutions along with our latest connected audio platforms incorporating Spotify Connect, Multi-Room and Airplay. Contact details to make an appointment are found at the end of this invitation.

Frontier Silicon is the market leader in DAB/DAB+ radio and connected audio solutions, and our technology can be found inside products from all leading consumer electronics brands.

Join us to see our latest solutions and preview the technologies that will power the next generation of consumer audio products:

- **Verona 2** – Next generation single chip solution DAB/DAB+ module. Supports UK Digital Tick, vastly improved power consumption and performance.
- **Verona HD Radio**– Pin compatible to our best-selling Verona module, we now offer a simple and effective solution for low cost HD Radio devices
- **Spotify Connect Multi-Room** – Now available on Venice 6.5, set up groups of speakers or radios to all play Spotify Connect simultaneously.
- **Venice 6.5 Dual Band** - feature rich audio streaming experience with Spotify Connect, Multi-Room, AirPlay, DLNA, internet radio and on-demand content over Wi-Fi. Now available for wireless speakers or with a rich colour user interface
- **Market Updates** - The latest market news on digital radio and connected audio, giving you access to the information that Frontier Silicon gathers through its extensive contacts around the World

To see how your company and products can benefit from the latest in audio technology development, please contact us to make an appointment:

Karen Leung
